

ENVIRONMENTAL STATEMENT

RELATING TO

THE ENVIRONMENTAL PROTECTION ACT 1990

GENERAL POLICY ON THE COMPANY'S APPROACH TO ENVIRONMENTAL MANAGEMENT

At Marshall Errock Construction we recognise the fundamental importance of environmental issues and are therefore committed to reducing the environmental impacts of our activities by preventing pollution and preserving and protecting the environment.

The environmental impacts of our operations will be considered at the earliest opportunity and an assessment carried out to detail potential environmental risks. As a result of this assessment all necessary controls will be implemented ensuring, as a minimum, that legal requirements are met.

Our commitment to the environment will be effectively communicated to employees, sub-contractors and suppliers when carrying out activities that have potential for environmental consequences.

Prior to commencing works on sites controlled by other contractors Marshall Errock Construction Ltd will make reasonable efforts to ensure employees are aware of any potential environmental issues and adhere to the site rules

Our commitment to environmental protection is ongoing and we aim to make continuous improvements as our organisation develops. In order to achieve this, our policy will be reviewed annually.
